Enhance Healthcare Delivery

Empower your workforce and enhance patient care with reliable connectivity, secure data management, and audit-ready compliance assessments.

> **Health organisations must embrace new care delivery models, including hybrid care, to address ongoing challenges.**
>
> EY Global Voices in Health Care Study 2023

Seamless connectivity for improved delivery

Upgrade your healthcare facility with our advanced network solutions. Enjoy seamless connectivity on a reliable and secure network and improved productivity with quicker access to patient records.

Maximise efficiency

Empower your team to deliver the best possible care and outcomes with our cloud-based network solutions. We can help your facilities optimise complex workflows and simplify IT management, so they can focus on providing quality care.

Secure sensitive medical data

Safeguard patient information and staff data without compromising access. Our solution's enterprise-grade features ensure only authorised employees have access to key information.

Empower remote healthcare delivery

Deliver high-quality remote and telehealth services easily on a robust high-speed connection. Enjoy reliable and stable connectivity that enables your team to deliver quality healthcare, no matter the location.

Enhance visitor and patient satisfaction

Elevate visitor and patient experiences with reliable and secure WiFi access across your facilities. Optimise your IT infrastructure to keep patients and doctors connected while securing access and ensuring compliance.

In 2023, the average cost of a healthcare data breach was US$10.93 million, a 53.3% increase from 2020.
